NEW YORK, Dec. 10 .- At White Plains yesterday, the daughters of the late Mr. Greeley, with a few friends accompanied by counsel, appeared before the surrogate to offer for probate the will of their father. This will, was executed November 29th, 1872. It had been written by Mr. Greeley some time ago, but was only presented to him for execution a few hours before his death.

It gave all the property equally to his two daughters. At the same time counsel appeared before the surrogate to contest this will, and offering in its stead one dated January, 1871. The contestants are Sam'l Sinclair, R. Manning, Charles Storrs, the two latter being named as executors. The counsel for the contestants then said that he hoped opponents of the will would acquiesce in the will of 1871. He thought the will exccuted by Mr. Greeley before his death did great injustice, inasmuch as it gave all the property to Miss Ida with the qualification that one half of it was to be used by her at her own discretion for the support and education of her sister Gabriella That some relations would be deprived of the property intended for them. The counsel for the daughters thought these remarks uncalled for, and announced that Miss Ida had offered to assign to her sister one-balf of the property, also to grant suitable annuities to relatives. The Misses Greeley declined to consider any

of testator to execute the will of 1872. THE WITNESSES. The fire witness was Miss Sampson who testified that she became a witness to the will on the day Mr. Greely died. Mr. death, conscious and rational. After some further examination of this witness, adjournment followed. CENTENNIAL COMMISSION. PRILADELPHIA, Dec. 9,—At a meeting of the centennial commission to-day the report of the executive committee was taken up. A resolution was adopted conferring executive and administrative power upon the executive committee, and the report with this amendment was adopted. The president of the commission was requested to make a report to congress of the doings of the commission, leaving present resolutions ruggesting a memorial to congress, and eaking for material aid, which was adopted. Resolutions were also adopted instructing the executive committee to confer with local committees.

## CONGRESSIONAL.

SENATE

WASHINGTON, Dec. 10 .- Mr. Cooper presented a memorial of the Southern Methodist association of Tennessee, asking payment for the destruction of their property during the war.

Mr. Sherman, of the finance committee, raported the hill of Mr. Pomeroy, prohibiting the sale of liquors the Districtof Columbis, and moved that it be referred to the judiciary committee.

The finance committee was in favor o a law imposing a penalty, for the benefit of wives or creditors of drunkards, upon those who sold them the liquor, but that it was rather a question of morals than of finance. After some discussion the senate refused to discharge the finance committee

from the consideration of the subject. Mr. Harlan introduced a bill transferring to E. Denison and the Sioux City railroad company of Iowa, all rights or interests heretotore vested in the Cedar Rapids and Missouri River railroad company by act of May 15, 1866, and June 2, 1864. to any public lands lying within twenty miles of the line between Denison and Onawa City, Iowa. Referred.

Mr. Cole offered a resolution directing the judiciary committee to inquire into the expediency of so amending the constitution as to provide for the election of pres ident and vice-president and United States senators by a direct vote of the Mr. Sherman from the committee on

finance, reported house bill for the relief of sufferers by the Boston fire, and stated that the committee was equally divided on the subject. The bill was placed on the calendar. The calendar of business then taken up most of bills upon it, were passed

HOUSE.

After introduction and reference of a number of bills the house took up a bill reported last session by Mr. Coburg of Maryland, to enable honorably discharged soldiers and sailors, their widows and orphan children, to acquire homesteads on the public lands, with authority to assign their certificates, and to locate by attorney. A debate ensued.

Mr. Hawley of Illinois, spoke against the bill, after which the house took up the Indian approprietion bill.

Mr. Sargent reported a bill from the committee on appropriations, and made a general statement about it. He said that the amount appropriated for the current year for the expense of the Indian service, was \$6,862,062. The amount proposed in the bill was \$5,379, 395, or nearly at a million less.

Mr. Niblock asked Mr. Sargent to give the house an idea of the present policy, and the views of the administration in regard to the Indians. Mr. Sargent replied that he was not authorized for the dministration in the matter.

Mr. Shanks, chairman of the Indian committee, stated that se far as his committee was concerned, it would rigidly adhere to the condition and spirit of the treatise between the United States and several Indian tribes till some other mode should be established with the consent of the Indians themselves. Till then the contract between the United States and the Indians should be, so far as the Indian ommittee was concerned, most sacredly maintained. Mr. Sargent went on to speak in commendation of the Indian peace policy and the remarkable increase in prosperity among the Indians within two years. The value of individual property increasing in one year from \$392,000 to \$9,941,000. All general debate being closed the house proceeded to consider the bill by paragraphs, and after getting through about half the bill, the house adjourned.

Tux exertions of this paper to arouse special effort to move the enormous corn crop of 1872 to market by the cheapest possible thoroughfare—the Mississippi and the Ocean-is winning attention and vorable comment everywhere. Our arti-cles have come under the notice of some owners of bulk grain propellers built to ply between Liverpool and Montreal via the St. Lawrence, and, as will be seen by a letter from Mr. Higby, the New Orleans elevator man, printed elewhere, they elevator man, printed elsewhere, they have visited New Orleans to offer their teamers for the next six months-while the St. Lawrence is frozen up-to the St. Louis and Liverpool corn trade. But, naturally enough, they want a guarantee that they can have cargoes, nd will agree to transport 3,000,000 bushels of corn from New Orleans to Liverpool at 11d to 13d per bushel. Suppose we put it at 12 pence per bushel. That is 24 cents coin per bushel, or \$1,440,000 in gold to be carned by these steamers in six months. That there will be a fresh impulse given to the grain trade via the great water route this approaching winter there can be no question, and from thenceforth for all time the superior economy of the route will insure its steady growth in importance. We advise all our business men to read Mr. Higby's letter. It contains matter they will be glad to know.—[Mis-
